RAISING THE ISSUES. GETTING RESULTS. WORKING FOR YOU.

**NEW BRAY
RECYCLING CENTRE
NOW OPEN!**

Dear Residents

At long last Bray has its own Recycling Centre. The new Recycling Centre is at Beechwood Close, off Boghall Road, Bray.

When I became Minister for the Environment, Heritage and Local Government I indicated that one of my priorities was to improve access to recycling facilities across the country. In September last I was particularly pleased to be in a position to provide funding of €1 million for the Bray Recycling facility. I am delighted that the new facility is open to the public. I know from my experiences as Minister that there is a huge interest amongst the public in recycling. In North East Wicklow, to date, that interest has been frustrated by the lack of a suitable centre. Now we have a top class recycling facility in Bray.

Like other recycling centres operated throughout County Wicklow, the Bray facility will take a very wide range of items and arrangements are being made for it to accept electrical and electronic goods shortly. A full list is reproduced on the back of this leaflet. The Centre will also feature an educational and awareness Centre. This will work with local schools and organisations in promoting recycling and alternative ways of reducing waste.

It is a priority of the Government to make first class recycling facilities available to the public. Since returning to office we have more than doubled the number of Recycling Centres and almost tripled the number of Bring Banks throughout the country. The Government believes that Ireland can become a European leader in recycling if the proper facilities are made available and if we all play our individual part.

Le gach dea ghúí.

Dick Roche, TD

Minister for the Environment, Heritage & Local Government

REDUCE YOUR WASTE COSTS RECYCLE AT THE NEW BRAY CENTRE
